FRIDAY MORNING, APRIL 30, 1858 THE BOULEVARD DE SEBASTOPOL.

The Paris correspondent of the N. Y. Commercial, gives the following account of the opening of the Boulevard de Sebastopol:

The close of Lent was followed on Monday by a grand celebration which called from their homes nearly all the citizens of Paristhe opening of the Boulevard de Sebastopol. This grand thoroughfare, bewn through the very centre of Paris, from side to side, is one of the greatest works of modern times. It was commenced in 1853, and is not yet in fact, finished, since a certain portion at its termination at the Barriere d'Enfer, where it passes the island in the river, remains unfinished; but the important and difficult part is completed, reaching over a distance of three miles. The portion remaining, much of which is partly done, will be accomplished in a few months, and then Paris can boast another of those wonders in city architecture which have already made her famous.

The ceremony of inauguration was rendered imposing by the immense display of military, and the crowd that pressed on the whole road from end to end. The National Guard in a double line held one side of the street, the Imperial Guard the other. The Emperor and suit on horseback, escorted by the Cent-Gardes, entered the lower end of the new Boulevard at the river, (Place du Chatelet.) at half-past two. Immediately a flag was boisted for a signal, and all the curtains which closed the friumphal arches on the route were simultaneously withdrawn, and his Majesty and the public saw for the first time from end to end of the street. These curtains-to give you some idea of the getting up of the affair-were velvet, covered with golden bees.

The Emperor was followed at a short distance, by the Empress in an open carriage, drawn by four horses, and attended by her household in carriages, and escorted by the guides of the Imperial Gaard. On entering the Boulevard, both the Imperial corteyes passed along at a walk. At the other terminus of the wide road, that is to say at the depot of the Strasbourg railway, their Majesties stopped, and then the inauguration proceedings took place. The Emperor made a speech, was introduced to and complimented the chief engineers and superintendents of the road, decorated five or six of them with the order of the Legion of Honor, looked at the machinery used in the construction of the road, and then returned to the Palace. On Monday evening an illumination of the new boulevard took place. Three long streams of fire suddenly burst forth from each side of the street from end of end, the houses were illuminated, and flags waved along the

AMERICAN CHAMPAGNE. A writer in the "Scalpel" says that the best brands of champagne are manufactur-ed in America, chiefly in New York. This is a bold assertion, and yet it is quite probable that a very large portion of the article which is represented to be of foreign origin is the result of Yankee ingenuity. It is known, however, that the genuine champagne which is manufactured at Cincinnati, is equal to any that is produced. The writer in the Scalpel says that the attempt that was made some years since by a manufacturer in Europe, to increase the exhibitanting qualities of his wine by impregnating it with nitrous oxide, or laughing gas, was more creditable to his inginuity than his conscience. It was frustrated by a distinguished chemist, who detected the imposture by analysis, after observing the wonderfully exhilarating properties of the beverage. The wine, which acquired much reputation from the fact of its immediate effect, soon lost ers in Europe were not disposed to encourage any effect not legitimately produced, and the ladies discovered that uncontrollable laughter was of all other expressions, the most trying to the expressive motion of

He adds that at the present time, there are in New York city, no less than thirteen establishments which manufacture champagne, or in other words, convert still wines nto sparkling ones; for no process has yet been discovered for producing an artificial wine which possesses the flavor and other qualities of the product of the grape. These manufacturers use for their purpose, a light French, and sometimes, if sparkling Hock is to be produced, a German wine. The wine, after being prepared by precipitating ali substances which would, when charged with carbonic said, be deposited in the bottle, is subjected to a high pressure of carbonic acid by machinery, and after being well agitated in contact with the gas, is bottled under pressure with a very ingenious machine. The quality of the article of course depends upon the quality of the wine used. Great care is taken to prevent contact with any soluble metallic substance in the apparatus used for preparing it; no mineral substances are used; indeed, the wine is perfectly pure, and when properly manufactured, is not inferior in flafor or properties to the imported article, and is sold at one half the price.

HOWARD ASSOCIATION, PHILADEL-PHIA.—A benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases.—To all persons afflicted with Sexual Diseases, such as SPERMATORRHEA. SEMINAL WEAKNESS, IMPOTENCE, &c. The Howard Association, in view of the aw-

ful destruction of human life, caused by Sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by quacks, several years ago directed their Consulting Surgeon as a charitable act, worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give Medical advice gratis, to all who apply by letter with a description of their condition, (age occupation, habits of life, &c .,) and in cases of extreme poverty, to furnish Medicines free of charge. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort, have been of great benefit to the af flicted, especially to the young, and they have resolved to devote themselves, with renewed zeal, to this very important but much despised cause.

Just published by the Association, a Report on Spermatorrhæa, or Seminal Weakness by the Consulting Surgeon, which will be sent by mail, (in a sealed letter envelope.) free of charge, on receipt of two stamps for postage.

Address, for Report or treatment, Dr. GEO. R. CALHOUN, Consulting Surgeon, Howard Association, No. 2 south Ninth street, Philadelphia, Pa. By order of the Directors.

Mr. E., is aware that these various concerns published as Gitt-Book-stores, are calculated to bring the business established by himself into disrepute. He asks of the public a correct judgment in regard to his Gift Book Enterprise, for the honor, integrity, and success, of which he refers to all the prominent publishers in the United States. If the applicant prefer, he can pay the full amount of the premium in cash, or by effecting a cash insurance for two years, the insured saves oneeighth of the amount he would otherwise have to pay: or by becoming a member, and giving a mall premium note, the insured saves nearly one half of the amount charged by Stock Companies, when insuring from year to year. This is the advantage resulting from the combination of

THE CASH AND MUTUAL PRINCIPLE. This company commenced issuing Policies against loss or damage by fire, on the 16th of March, 1854, since which time over five thousand seven hundred persons have insured and become members of the Company, and over thirty thousand dollars have been paid for losses. Having trebled our business during the past year, we feel grateful for the liberal patronage bestowed upon the Company thus far, and for its flattering prospects of future usefulness. The Directors hope and believe that by prudence, caution and a rigid system of economy, they will establish for this Company a reputation

All differences in settlement of losses, may be determined by three disinterested arbitrators of the County where such loss happened, to be mutually chosen by the insured and the Company.
